# TotalRT All in One Solution

## Features & Benefits

- Easily indexable on CT, MR and photon treatment tables with two Lok-Bars™
- Large, artifact-free and homogeneous treatment area for precise dose delivery, including hypofractionation
- Repeatable positioning of CIVCO RT devices, even between treatment rooms
- A single therapist can carry and index to couchtop
- Wall storage device allows effective way to store and protect the platform

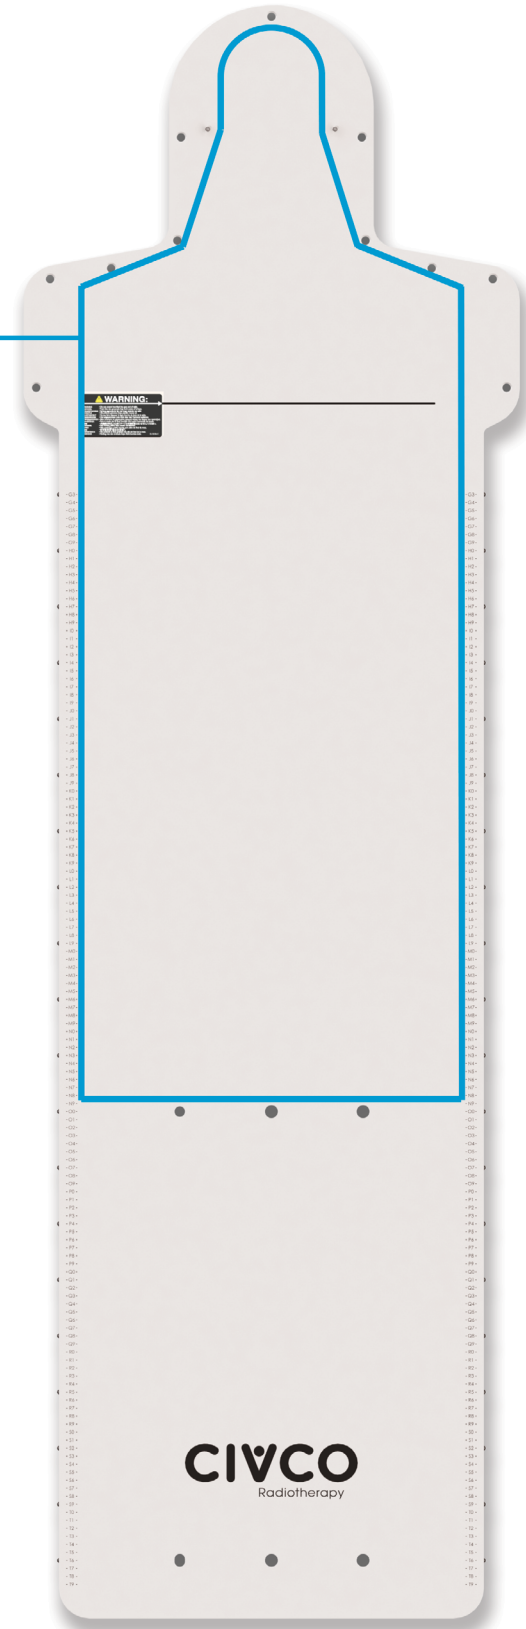

## Specifications

- Lightweight: 7.3 kg / 16 lbs
- Dimensions (cm): 201.3 (L) x 61.9 (W) x 3.5 (H)
- Platform is MR Safe

## MRSeries™

MRSeries products are intended for use in the MR environment. Always refer to product labeling to identify whether a device is MR Safe  or MR Conditional. 

## Universal Couchtop™ Profile, Prodigy™ 2 (7 cm) Indexing

Directly attach devices to the platform or secure using Lok-Bars™.

## Allows Use of Wing Boards™ in Head & Neck Area

Type-S™ Lok-Bar allows for indexing of any Three-Pin Wing Board or the Monarch™ Overhead Arm Positioner.

Watch the TotalRT™ Video on CIVCO RT's YouTube channel!

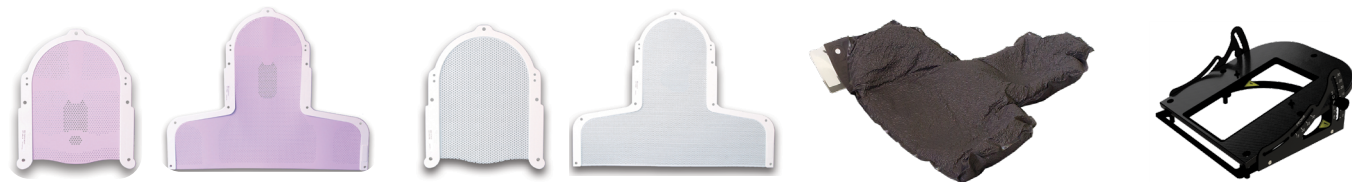

# Flexibility in SRS, Head & Neck, Brain and Craniospinal Setups

Directly attach all Type-S™ solutions, including Solstice™ SRS, Solstat™, Customizable Head Support, head only and head, neck & shoulder thermoplastics.

TotalRT allows ideal access to head & neck area when cantilevered off the couchtop.

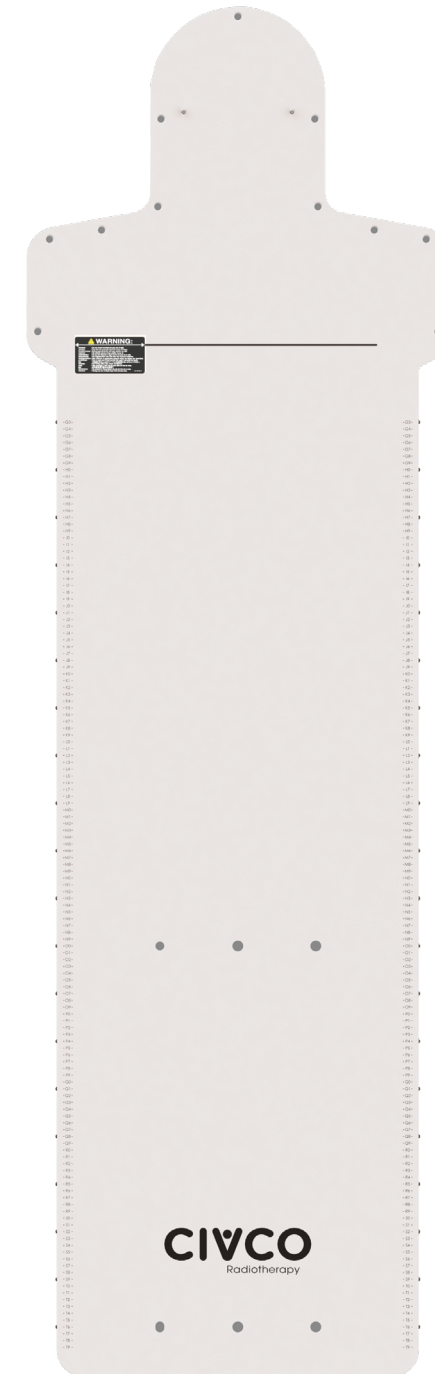

Visit [CivcoRT.com](http://CivcoRT.com) for additional Type-S Head & Neck Solutions

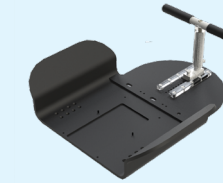

# Starter Solution

 All Starter Solution devices are MR Safe.

SBRT Solutions are sold separately. Suggested quantities are listed. Consult your sales representative for more information.

# Evolve Breastboard

**Evolve Breastboard** is a modular and lightweight solution that allows quick and simple indexing of many Wing Boards™ which aids in reproducibility without sacrificing patient comfort. Many hand grips, headrests and thermoplastic options easily integrate to maximize positioning options based on patient or clinical need. The board is indexable to the couchtop with or without the optional folding bottom board and features smooth adjustability between five elevation angles.

# ThermFix™ Immobilization System for Many Treatment Locations

The **ThermFix Immobilization System** uses a single sheet of thermoplastic that can be formed over the patient's breast, thorax, abdomen, hip or pelvis to aid in reproducibility and positioning. The system is easily indexable along the length of the platform, provides 1 cm indexing, and features a large, homogeneous treatment area.

# Increase Efficiency, Position Devices Easily and Gain Confidence in Patient Setup

**TotalRT**  
All in One Solution

# Platform Wall Storage

The platform stand creates a fast and effective way to store and protect TotalRT. The base and strap plate easily mount to the wall.
